PART IINARRATIVE SUMMARY

The majority of the month of June was spent by the Battalion occupying defensive positions in the Napoleon, Baline AO. Companies "M" and "I" operated from Company patrol bases at YD 267702 and YD 268704 respectively, Company "K" operated from a patrol base at YD 165648 while Company "L" and the Command group were located at Camp Big John (YD 278663). While at these positions, in addition to normal patrolling and security activities, a program of constructing and improving defensive positions was initiated. On 4 June 68 Companies "K" and "L" and a Command group conducted a search and destroy mission in the vicinity of KY TRUC (YD 250660) and KY LAM (YD 245669), no contact was made by either company during this operation. At YD 255650 Company "K" encountered approximately 100 civilians who were enroute to a rice harvest, the civilians were searched, checked for identification and allowed to continue on their way. The search and destroy mission was completed without further incident and the Companies returned to their patrol bases.

On 14 June 68 Company "I" was chopped to OPCON of the 9th Marines for bulldozer security in Leatherneck Square and Company "M" was moved from its patrol base stated above to occupy the perimeter at Camp Big John.

On the evening of 14 June at 2130H a Company "I" ambush at YD 265702 engaged two NVA/VC who were observed crossing the river, the NVA/VC were taken under fire with M-79s and mortar fire, a search of the area at first light the following morning disclosed bloodstains and items of ordnance and equipment, the most significant of which was a 140mm rocket.

On 25 June Company "L" was returned to Battalion control from 9th Marines OPCON.

The Battalion continued to carry out its basic mission until 26 June when in accordance with a 3d Marine Frag Order, the Battalion was heli-lifted to LZ Yankee in Leatherneck Square to conduct a search and destroy mission. The LZ was secured and consolidated without resistance by 1015H. At 1525H the same day, Company "L" elements were engaged with heavy automatic weapons fire from bunkers at YD 173695, the bunkers were believed to be occupied by a reinforced NVA squad. The enemy was engaged with small arms, artillery and fixed wing. At 1730H, under the cover of a smoke screen, contact was broken. Friendly casualties were one (1) KIA and sixteen (16) WIA med evacs. The enemy casualties were 8 NVA KIA confirmed.

On the night of 27 June there were two light contacts by listening posts one of which resulted in one friendly WIA med evac. There were no known NVA/VC casualties as a result of these two listening post contacts.

During the month of June approximately 111 bunkers were destroyed and numerous amounts of enemy equipment and ordnance were captured.
